DARSHAI SOVEREIGN WELLNESS EXCLUSIVE RETREAT SERIES

Welcome to Your “Sovereign 168”

A week has always contained 168 hours.

What changes is who they belong to.

For the next seven days, they belong entirely to you.

This journal bridges two great intelligences - the precision of AI and the timeless wisdom of the earth - to guide your return to biological sovereignty. These hours are no longer the world's to take. They are yours to spend with intention, with awareness, and with the rare luxury of complete attention to yourself. The map is in your hands. The journey begins now.

SEVEN DAYS • TEN DIMENSIONS • ONE SOVEREIGN LIFE

Your Guided Reflection Experience

This journal covers all 10 dimensions of whole-person wellness. Use it monthly or quarterly to pause, reflect honestly, and set intentions for each area of your life. It typically takes 45–60 minutes to complete fully.

Tips for a meaningful experience:

- Find a calm, quiet space with no interruptions.
- Answer instinctively - your first response is usually the most honest.
- Use a 1–5 scale honestly; 3 is not a default - it means 'meets expectations'.
- The commitment boxes at the end of each section are the most important part.
- Revisit past entries to track your growth over time.
- Share with a therapist, coach, or trusted person only if it helps you.
